PROFESSIONAL SUMMARY

Creative and technically driven Software Engineering (Multimedia System Development) undergraduate at Universiti Kebangsaan Malaysia (UKM), currently seeking an Information Technology internship placement for 20 weeks, from 10 August 2026 to 28 December 2026. Skilled in Python, JavaScript, C#, Java, HTML, CSS, and MySQL, with hands-on experience in full-stack web development, front-end development, database management, and UI/UX design. I am looking for a position in IT, software development, or front-end development where I can apply my technical and creative skills to real-world projects and contribute to practical, industry-driven solutions.

EDUCATION BACKGROUND

Bachelor of Software Engineering (Multimedia System Development) Aug 2023 – Present
Universiti Kebangsaan Malaysia (UKM)

Foundation / Pre-University Jun 2021 – Jun 2023
Kolej Matrikulasi Melaka

LEADERSHIP & INVOLVEMENT

Multimedia & Publicity Executive Aug 2024 – Jun 2025
Faculty of Information Science and Technology Students' Association (PERTAMA), UKM

- Designed and produced digital promotional materials (posters, banners, social media graphics) for faculty events using Canva, Adobe Illustrator, Photoshop, and Figma.
- Managed visual communication strategies that increased student engagement across faculty programs.
- Collaborated cross-functionally with team members to deliver multimedia content on deadline.

Head of Executive, Multimedia & Publicity Jun 2025 – Jun 2026
Selangor Students' Association (PERMAS), UKM

- Led the multimedia and publicity team in producing promotional materials for society events and campaigns.
- Managed visual communication strategies and increased community engagement among Selangor students at UKM.
- Participated in leadership, discipline, and teamwork-based activities, contributing to university programs and community engagement initiatives.

ACADEMIC PROJECT

UKM SkillShare Mobile Application | EdTech Peer-to-Peer Learning Platform

- Designed and developed a mobile-based peer-to-peer learning platform using Android Studio, implementing user profiles, skill matching, session booking, and a feedback system.
- Modelled system architecture using ERD, DFD, Use Case, and UML diagrams to ensure scalable, well-documented design.
- Proposed payment integration and reward system features to drive user engagement.

PHP-Based Web Ordering System | Full-Stack Web Application

- Developed a full-stack web ordering system with complete CRUD functionality for products, customers, and orders using PHP and MySQL.
- Implemented dynamic product selection and real-time order management, optimising MySQL database schema for efficient data retrieval.

3D Puzzle Adventure Game | Unity & C# Game Development

- Developed a 3D third-person puzzle-adventure game in Unity using C#, featuring physics-based puzzles, trap mechanics, and enemy AI interactions.
- Designed interactive game environments and implemented responsive player control systems.

CERTIFICATES AND ACHIEVEMENT

- 2nd Place – IMEC T-Shirt Design Competition 2023–2024
- 4th Place – KMM Programming Race 2022
- Top Coders Malaysia 2025 Pre-Competition Workshop – Python Fundamentals (Completed) 2025

SKILLS & LANGUAGES

Programming Languages: Python (Beginner), JavaScript (Intermediate), Java (Advanced), C# (Intermediate), HTML (Intermediate), CSS (Intermediate), MySQL (Intermediate), Kotlin (Beginner)

Tools & Technologies: Git, GitHub, Visual Studio Code, Visual Studio, Android Studio, Unity

Design & Multimedia: Figma (Intermediate), Adobe Illustrator (Intermediate), Adobe Photoshop (Intermediate), Blender (Beginner), Autodesk 3ds Max (Beginner)

Project Management: ClickUp, Microsoft Office 365 (Intermediate)

Methodologies: Object-Oriented Programming (OOP), Agile, ERD, DFD, UML, Use Case Diagrams

Language Skills: Bahasa Malaysia (Native) | English (Advanced – Speaking, Reading, Writing)
